Category 12-Products not intended for direct skin contact, minimal or insignificant transfer to skin	54,8582

List of ingredients identified for having the potential of forming nitrosamines in nitrosating systems according to IFRA Standards:

Declaration of substances is not required

In general terms, the concentration of substances is indicated at 10 ppm (w/w) or more, except in the case of substances assigned an asterisk (\*) which, due to their relevance in the legislative field, will be shown at 1 ppm (w/w) or more.

Its has been limited to 20% the maximum dose in all categories except 10A and 12. In case that need a higher dose than 20%, please request us.

For products with oral and lip exposure, please, ask us.

Use in other product types or at higher concentrations should be the subject of a separate safety evaluation by us.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if need be.
